

## PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them. Dr. Edwards' Olive Tablets are the only medicine that does not irritate the bowels, but their action is gentle and safe, instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 30c and 25c per box. All druggists.

—Adv.

SUNDAY WORLD WANTS WORK WONDERS

## B. R. T. RECEIVER ASKS FUND TO PAY BIG WRECK CLAIMS

Garrison Estimates \$1,100,000 Will Be Needed to Settle for Tunnel Deaths.

Lindley M. Garrison, temporary receiver for the Brooklyn Rapid Transit Company and its subsidiaries, the New York Municipal Railway Corporation and the New York Consolidated Railroad Company, declared in a preliminary report to Judge Julius M. Mayer in the United States District Court to-day that he is making settlements with relatives of the victims of the Malbone Street tunnel wreck of Nov. 1, in which ninety-four lives were lost and 203 persons were injured. Money must be supplied by

the court, however, before the claimants are paid.

"Prior to my appointment," says the report, "settlements had been made in twelve death cases and 102 personal injury cases, at an aggregate cost of about \$128,000. While only an approximation can be made of the amount of damages still accruing, the sum probably will not be less than \$1,100,000.

"Since my appointment I have authorized the continuation of making settlements up to the point of payment, in order to await the instructions of this court in the premises. Provision will have to be made for raising money to meet these claims if they are to be paid."

The report recommends that provision be made as soon as possible for 400 or 500 new steel motor cars, to cost approximately \$20,000 each.

**\$10,000,000 NEEDED FOR CONSTRUCTION WORK.** Attached to the report, which fills thirty typewritten pages, are thirty-two schedules, which show in detail the financial situation of the corporations, the terms of their contracts with the city and the present status of obligations on both sides. Dealing with the obligations yet to be fulfilled, the report says:

"There are yet to be furnished and supplied by the New York Municipal Railway Corporation the following things, which it is estimated will cost approximately \$10,000,000, exclusive of taxes, discount and interest during construction:

Completion of equipment of city railroads for "initial operation" (includes 100 additional cars not yet delivered)	\$5,500,000
Completion of additional tracks on extensions of existing railroads	2,500,000
Reconstruction of existing railroads (includes yard at Coney Island and 26th Street inspection yard if not furnished by the city)	2,000,000
Total	\$10,000,000

The report points out that these figures do not include possible purchases of real estate or abutting property owners' damages on account of elevated railroad obstruction. The report says the \$10,000,000 total includes

### How's This? Corns Lift Out With Fingers—No Pain!

Thanks to a new discovery made from a Japanese product, your foot troubles can be quickly ended.

Ice Mint, as this new preparation is called, is said to shrivel up hard corns, soft corns or corns between the toes so that they can be lifted out easily with the fingers. It's wonderful. Think of it: ship a touch or two of Ice Mint and real foot-joy is yours.

There is not one bit of pain or soreness when applying it or afterwards, and it doesn't even irritate the skin.

If your feet are inclined to swell or puff, or if you have cracked or bleeding toes, it will draw the inflammation right out and quickly heal the sore and tender places. It is the real Japanese secret of fine, healthy little feet and is greatly appreciated by women who wear high heel shoes and by men who have to stand on their feet all day. Try it: Just ask in any drug store for a few cents' worth of Ice Mint and learn for yourself what solid foot comfort really is. There is nothing like it—Adv.

## Men of High Financial Knowledge Who Discussed "After the War" at the Foreign Relations Dinner

### B. R. T. OFFICIALS' SALARIES GIVEN OUT BY RECEIVER; WILLIAMS GETS \$75,000

Other Officers of Company Draw from \$25,000 to \$10,000 a Year—Finds Legal Staff Efficient.

THE following list of salaries of B. R. T. officials was included in the report to-day of Receiver Garrison:

Year	Salary
Timothy S. Williams, Pres.	\$75,000
(400,000 paid by the B. R. T. and \$25,000 by other companies of the system)	
W. S. Montavon, Chief Engineer of the New York Municipal Railway Corporation and Assistant to the President of B. R. T.	\$25,000
J. D. Menely, Vice Pres.	\$15,000
J. J. Dempsey, Vice Pres.	\$15,000
C. E. Roehl, electrical eng.	\$12,000
Howard Abel, comptroller	\$10,000

Salaries paid in legal department—"my short acquaintance with which," says the receiver, "leads me to believe it is efficient"—total \$123,300 a year. George D. Yeomans, general counsel, receives \$25,000, and Charles L. Woody, assistant general counsel, gets \$25,000, and Charles L. Woody, assistant general counsel, gets \$12,000. The salaries received by nineteen other attorneys on the B. R. T. staff range from \$1,500 to \$9,500 a year.

more remote future of the New York Municipal and the B. R. T., totalling \$6,000,000, also are given.

The report says the cost of labor to the companies increased \$4,172,222 from 1916 to 1917, and the cost of fuel increased \$1,758,068 in the same time. The effect of higher costs generally on the system is set forth in a statement showing that for the five months ending Nov. 30, 1918, the system earned only \$18,729,446 over all charges, against \$2,395,750.54 in the corresponding period of 1917, a falling off of \$2,077,021.98, or 86.70 per cent.

The various sources of income of the B. R. T. are listed, and the system's chief present difficulty is described as "lack of cash" payments of interest, dividends and other indebtedness having been suspended or reduced.

### STEAMER YUMA SINKS.

Seven in Lifesboat Not Heard From. But 100 Are Saved.

The Clyde-San Domingo Line of No. 11 Broadway announced yesterday afternoon receipt of a message that their steamer Yuma of 1,000 tons, with a crew of twenty-seven and a cargo of sugar, was wrecked Friday on Mouchor Bank and sank next day.

The cablegram said Capt. J. D. Jones and most of the crew are safe. Third Mate John Miller of No. 120 Jerome Avenue, Bronx, a clerk and five deckhands left the ship in a lifeboat and have not been heard from. Eighty-two laborers who were on the way here were saved by improvised lifeboats.

The Yuma left Santo Domingo Jan. 6. There is little hope of salvaging her.

### NO LABOR SURPLUS HERE.

New York Can Find Work for Reasonable Number of Men.

There is no surplus of common labor in New York State. The State can find work for a reasonable number of this class of laborers.

Tilden Adamson, controller of the United States Employment Service, made this statement to-day while discussing conditions in the Middle and Western States, where, according to the Federal Department of Labor, a contrary condition exists.

"It must not be imagined that there is work ready for an extraordinary amount of common labor," said President Holland of the State Federation of Labor. "Conditions are normal. Because this is so there should be no large influx of common laborers to the State. If there should be a great rush here, we would very soon have a surplus."

## CONSULATES HERE FORM COUNCIL TO AID RELATIONSHIP

Plans Formulated at Meeting of Educators and Business Men.

Representatives of the foreign Consulates in New York City shook hands to-day with business men, educators and bankers in the office of Mark O. Prentiss, No. 165 Broadway, under the auspices of the newly organized Council on Foreign Relations.

The Council, whose purpose will be to promote good feeling between America and other nations, was launched successfully last night at a dinner in the Hotel Astor.

Foreign Consuls or their representatives attended to-day's conference prepared to answer questions and give any other information desired. This was said to be the inauguration of a custom destined to prove profitable to all concerned.

Many of those who briefly addressed to-day's informal assembly had been heard at length at the banquet.

Among those who spoke was Secretary of Commerce Redfield. Dr. W. C. Huntington, United States consular attaché at Petrograd, declared again that as soon as the Russian crisis has been passed the Russian people will be among the best friends and most customers of America.

Nelson C. Brown, Lumber Trade Commissioner, recently returned from Europe, where he toured the Italian, French and Balkan fronts, talked of

the important part the American lumber industry must take in European reconstruction. Pierce C. Williams, commercial attaché at Paris, emphasized the necessity for the extension of American credit to France.

## GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair becomes charming, wavy, lustrous and thick in a few moments.

Every bit of dandruff disappears and hair stops coming out.

For a few cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this: moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggly, faded, dry, brittle or thin. Danderine beautifies the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter and just try it—Adv.
